

48,000 babies are born premature or sick every year in Australia

We're here to help

Since 2005, **Life's Little Treasures Foundation** has provided families with information, emotional and practical support as well as connection opportunities to help them during their hospital stay and beyond.

To help reduce the issues that affect families with a sick or premature baby, we provide a range of products and services such as our:

- NICU Connections support groups helping to reduce isolation
- Little Bag of Calm self-care packages for parents
- Financial assistance program to help ease the financial burden that comes with travelling to and from the hospital

Head to lifeslittletreasures.org.au to:

Download guidebooks, tip sheets and videos from health professionals and parents who have 'the lived experience'.

Order a Little Treasures Welcome Pack full of information and beautiful items for your little treasure.

Join our NICU Connections support group to chat, share experiences and celebrate milestones.
